# Pool Safety Rules

A Social Story

**When I go to the pool, I need to use walking feet.**

**The ground near the pool can be wet and slippery. I walk near the pool so I don't fall.**

**The sun can make my skin turn red and burn.  
Sunburns hurt!**

**I wear sunscreen so I do not get a sunburn.**

**Sunscreen**

**No Sunscreen**

**I only get in the pool when a grown-up is with me.  
I have to ask before getting into the water.**

**At the pool I stay close to friends and family so I  
don't get lost.**

**We can play together and have fun!**

**I wear my life vest or floaties in the pool.**

**These help me float when I swim and keep me safe in the water.**

**When I play with my friends in the water, I keep  
nice hands and feet.**

**If I push or splash, my friends won't want to play  
with me.**

This is no fun! I  
don't like the  
water in my face.

**Lifeguards are at some pools to keep people safe.  
They will blow the whistle if someone is not  
following the rules.**

**If I do not listen and follow the rules, I might  
have to get out of the pool.**

**When I go to the pool I should follow the rules to  
stay safe and have fun!**
